Subject WASTE TREATMENT

After the matter was reviewed with Mr. Rarig today, his advice is that we go back to treating the water as recommended in Mr. Iezzi's note of April 16. Will you therefore take the necessary steps to see that this is done?

It is planned to discuss the matter with the State water officials promptly. There is good reason to believe that this treatment may not prove necessary and, in fact, may prove to be undesirable. We agree that very valuable information can be gained by continuous monitoring of the streams and wells.
